**Wells Engineered Products Gears Up for SAE International's  
WCX™ World Congress Experience 2020**

*Explore Rotary Positioning Sensing and Other Custom Precision  
Engine Management Applications by Visiting Booth #2228*

FOND DU LAC, WI (March 11, 2020) – Wells Engineered Products, a business unit of Wells Vehicle Electronics, is preparing to sponsor and exhibit during SAE International's WCX™ World Congress Experience, which takes place April 21-23, 2020 at the TCF Center (formerly the Cobo Center) in Detroit, MI. In addition to exhibiting in Booth #2228, Wells Engineered Products will be giving a presentation on Rotary Position Sensing for EV Powertrain Applications in the WCX Learning Lab on Wednesday, April 22 at 3:00 p.m. Eastern Time.

As a full-line manufacturer of custom precision engine management, sensor and control products for manufacturers of premium vehicles and equipment throughout North America, Wells Engineered Products leverages Wells' history of innovation, unmatched engineering resources and commitment to customer service to solve a wide variety of engineering challenges.

"We're excited to not only be exhibiting but also presenting at WCX 2020," said Greg Burneske, Director of Wells Engineered Products. "We especially look forward to leading the conversation on rotary position sensing for EV powertrain applications and engaging with some of the best and brightest minds in technical mobility during the show."

Visit Wells Engineered Products during WCX 2020 in Booth #2228 for live demonstrations of rotary position sensing technology, the opportunity to engage with key members of the Wells Engineered Products engineering team and the ability to gain insights surrounding your unique engineering challenges.

**About Wells Engineered Products**

As a business unit of Wells Vehicle Electronics, Wells Engineered Products is a full-line manufacturer that provides custom precision engine management and power control products for manufacturers of premium vehicles, power generation and industrial equipment throughout North America. Wells Engineered Products partners with automotive manufacturers and their Tier 1 suppliers, as well as smaller sectors, to combine and re-engineer the best technologies available to design, develop, test, validate, build and deliver proven parts that meet their unique needs and applications. For more information, visit [www.wellsengineeredproducts.com](http://www.wellsengineeredproducts.com).

**About Wells Vehicle Electronics**

Wells Vehicle Electronics L.P., founded in 1903 by Robert Wells, designs, manufactures, and distributes industry-leading vehicle electronics. As a division of NGK Spark Plug Co., LTD, Wells focuses on finding and providing win-win solutions for its associates and business partners from its headquarters in Fond du Lac, Wisconsin. For more information, visit [www.wellsve.com](http://www.wellsve.com).
